-----  
Summary:

-----  
The proposal is to add a new Usage ID to the Consumer Page (0x0C) to support the initiation of a voice command.

Background:

-----  
Most current hand held devices support the handling of voice commands though either the user interface or the overloading of existing physi

Proposal:

-----  
Add the following to section 15, Table 17: Consumer Page

Usage ID: 0xCF  
Usage Name: Voice Command  
Usage Type: OSC

Change the following to section 15, Table 17: Consumer Page

Usage ID: 0xCF  
Usage Name: Reserved

To:

Usage ID: 0xCF  
Usage Name: Voice Command

Add the following to the descriptions below Table 17: Consumer Page

Usage Name: Voice Command (OSC)  
Description: Initiates listening for Voice Command
